

**Johns Hopkins University / Penn State University / University of Maryland Baltimore County
Biomaterials Day - October 29, 2010**

The theme of the meeting was 'Superdisciplinary Research - Going Beyond Interdisciplinary Approaches'. The goal of the program was to provide perspectives of the future of biomaterials research and potential models for collaborations. Topics included:

- The Future of Biotechnology and Biomaterials
- Teamwork
- Entrepreneurship - What it Takes to be Successful
- Serendipity - The Fuel for Innovation
